Bella Alice has partnered with Segafredo Zanetti to create his coffee blend, made with a full-bodied selection of the highest quality beans from Central America and Central Eastern Africa, staying true to the authentic Italian espresso flavour.

The beans have a sweet, smooth and chocolate finish with a spicy and slightly malty aroma and are locally roasted in Melbourne: this means that the coffee you drink in Alice Springs will have the same taste like the one you would find in Piazza San Marco in Venice—where the Italian Coffee tradition started.
